

Experiment 8

Aim

Write an HTML code to demonstrate the usage of external CSS.

Code

index.html

```
<!DOCTYPE html>
<html>
  <head>
    <title>External CSS</title>
    <link rel="stylesheet" href="style.css">
  </head>
  <body><p>I'm implemented with External CSS</p></body>
</html>
```

style.css

```
p { text-align:center;
    color:blue;
    font-size:50px;
    font-weight:bold;}
```

Output

I'm implemented with External CSS
