Departments

List of Departments

- Computer Science

  Computer Science is a branch of engineering that deals with the study of computers and their applications. It is a field that combines both computer engineering and computer science. Computer science is a branch of engineering that deals with the study of computers and their applications. It is a field that combines both computer engineering and computer science. Some of the subjects taught in this department are:
  - Data Structure
  - Web Technology
  - Software Engineering
- Electronics and Communication

  Electronics and Communication Engineering is a branch of engineering that deals with the study of electronics and communication. It is a field that combines both electronics engineering and communication engineering. Some of the subjects taught in this department are:
  - Microprocessor
  - Communication System
  - Electronics
- Mechanical Engineering

  Mechanical Engineering is a branch of engineering that deals with the study of mechanical systems. It is a field that combines both mechanical engineering and mechanical engineering. Some of the subjects taught in this department are:
  - Thermodynamics
  - Fluid Mechanics
  - Machine Design
- Civil Engineering

  Civil Engineering is a branch of engineering that deals with the study of civil systems. It is a field that combines both civil engineering and civil engineering. Some of the subjects taught in this department are:
  - Structural Analysis
  - Fluid Mechanics
  - Machine Design
