# Experiment 9

Aim

Write a Java script to prompt for users name and display it on the screen.

Code

```html
<html>
  <head>
    <script>
      let username = prompt("Please enter your username", "chirag");
      let text;
      if (username == null || username == "") {
        text = "User cancelled the prompt.";
      } else {
        text = "Hello " + username + "! How are you today?";
      }
      document.write('<h1  style="text-align: center;">' + text + "</h1>");
    </script>
  </head>
</html>
```

Input

Output
